Leisure Line COAL BURNING STOVES. THE SM

Offering a full line of high-efficiency coal burnin

Li'l Heater

Designed as a supplemental heating source, this smaller stove costs less and puts out 70,000 BTU. It's 265 CFM blower means this stove is rated as one of the most cost-effective stokers being built today. This stove shares the same reliable feeder design, large ash pan, and Coal-Trol as our popular Pioneer model.

SPECIFICATIONS

OUTPUT: Up to 70,000 BTU
DIMENSIONS: 39.5"H X 20"W X 29"D
HOPPER: Holds 85lbs.
WEIGHT: 200lbs.
BLOWER: 265 CFM

BACK VENT

Sidewinder

The side-mounted hopper on this small stove makes it the perfect choice for tight spaces or close to the wall. Radiating up to 70,000 BTUs, this little unit is perfect as a supplemental heat source for homes up to 2,000 square feet. Comes standard with our unique Coal-Trol thermostat, ensuring a nice, even heat flow.

SPECIFICATIONS

OUTPUT: Up to 70,000 BTU
DIMENSIONS: 33.5"H X 33"W X 18"D
HOPPER: Holds 85lbs.
WEIGHT: 200lbs.
BLOWER: 265 CFM

BACK VENT

Hearth

Virtually identical to our popular Pioneer models, but utilizes a side-mounted hopper for easier access. Can be used with a chimney or power-vent to provide up to 90,000 BTUs of radiant heat using our standard Coal-Trol thermostat system. The large ash pan makes for easy cleaning. Hopper can be right or left mounted.

SPECIFICATIONS

OUTPUT: Up to 90,000 BTU
DIMENSIONS: 34.25"H X 36"W X 21"D
HOPPER: Holds 85lbs.
WEIGHT: 235lbs.
BLOWER: 212 CFM
DOOR COVER INCLUDED

BACK VENT

Independence

Designed to be a more affordable and simple way to heat your home. This manually-controlled stove is capable of up to 90,000 BTUs, a perfect supplemental heat source for the average 2,500 square foot home. Comes with a reliable feeder design, large ash pan and a powerful 265 CFM blower.

SPECIFICATIONS

OUTPUT: Up to 90,000 BTU
DIMENSIONS: 38"H X 27"W X 31"D
HOPPER: Holds 110lbs.
WEIGHT: 250lbs.
BLOWER: 265 CFM

BACK VENT

POWER VENT SYSTEM: AVAILABLE ON ALL MODELS

The optional SWG Power Vent System is the safest and most efficient way to prevent CO₂ leakage and maintain constant airflow through your system. Constructed of high-grade stainless steel, this unit is fitted to your coal stoker stove and connected to a vent pipe when there is no chimney to use.

OTHER OPTIONS AVAILABLE:

- Custom Welding available such as changing back vent to top vent. Ask your dealer for more information.
- Single or Double Loop Domestic Hot Water Coil available.
- Door Cover available for all stoves.

BEST ALTERNATIVE FOR HEATING YOUR HOME.

Large stoves with outputs of 70,000 -180,000 BTUs

Pioneer LE/T

Our Number 1 selling coal stoker stove. Built with all of the latest innovations, the Pioneer can put out an amazing 90,000 BTUs and still be vented with a chimney or by using our Power Vent System. The standard Coal-Trol thermostat controls the fan speed automatically for up to 265CFM. Just set it and forget it.

SPECIFICATIONS

OUTPUT: Up to 90,000 BTU
DIMENSIONS: 38"H X 27"W X 31"D
HOPPER: Holds 110lbs.
WEIGHT: 250lbs.
BLOWER: 265 CFM
DOOR COVER INCLUDED

TOP VENT

Pioneer LE/B

Virtually the same as our Number 1 selling coal stoker stove, this unit puts out up to 90,000 BTUs and can be in a low-flue chimney or power vented directly out the back, hiding any pipes. The fan speed is controlled automatically with our Coal-Trol thermostat for up to 265CFM.

SPECIFICATIONS

OUTPUT: Up to 90,000 BTU
DIMENSIONS: 38"H X 27"W X 31"D
HOPPER: Holds 110lbs.
WEIGHT: 250lbs.
BLOWER: 265 CFM
DOOR COVER INCLUDED

BACK VENT

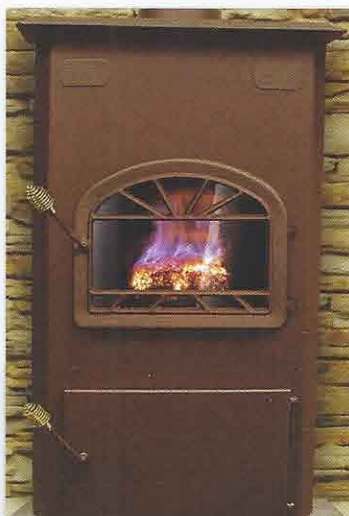

Pocono

Engineered for cold winters with a hopper capacity of 200 lbs of rice coal for extended periods of hard burning. Body is made from durable 12-gauge steel to radiate the heat produced by the 110,000 BTU burner. The digital, programmable Coal-Trol thermostat and large dual blowers make sure no hot spots exist.

SPECIFICATIONS

OUTPUT: Up to 110,000 BTU
DIMENSIONS: 47"H X 24"W X 33"D
HOPPER: Holds 200lbs.
WEIGHT: 300lbs.
BLOWERS: 2 @ 265 CFM each

**TOP OR
BACK VENT**

Hyfire

This unit has twin 90,000 BTU burners and generates heat ranges from 5,000-180,000 BTU's. If you're the person who wants the most from their heating dollar, then the Hyfire is the one for you. In addition, the Hyfire stove can be ducted directly to an existing hot air furnace.

SPECIFICATIONS

OUTPUT: Up to 180,000 BTU
DIMENSIONS: 46"H X 29.5"W X 33"D
HOPPER: Holds 200lbs.
WEIGHT: 400lbs.
BLOWERS: 2@265 CFM each

BACK VENT

HOT AIR JACKET: EXCLUSIVELY FOR THE POCONO AND HYFIRE COAL STOVES

The optional Hot Air Jacket fits the Pocono and Hyfire stove and allows the unit to be piped directly into your existing hot air heating system. This will allow you to drastically cut your heating costs without a major restructuring of your heat system. With up to 190,000 BTUs possible, you may be able to heat your entire home without the inconvenience of a new duct system being installed.

OTHER OPTIONS AVAILABLE:

- Custom Duct Tops available for all stoves.
- Standard Duct outlets are 6", 8", 10", 12", and 14" or any custom rectangle or square.

Leisure Line COAL FURNACES & BOILERS

Coal burning furnaces & boilers that can heat up to 5,000 square feet.

AK-110 HOT AIR FURNACE

This single feeder anthracite stoker furnace is the right choice if you are looking to heat a home up to 3500sq/ft. The internal heating surface is approximately 26 square feet, which consists of 18 tubes transferring more of the heat from inside the furnace to your home where it belongs instead of up the chimney. This model comes standard with a 200 lb. hopper. Optional Cold Air Return Plenum with 20" X 20" Filter.

SPECIFICATIONS

OUTPUT: Heats up to 3,000 sf
DIMENSIONS: 48"H X 29"W X 51"D
HOPPER: Holds 200lbs.
WEIGHT: 600lbs.
BLOWER: 1,800 CFM

SHOWN WITH OPTIONAL 320lb. HOPPER.
THIS UNIT WILL SERVICE AN AVERAGE HOME OF 2,500 – 3,000 SQUARE FEET AT A VERY LOW COST.

AK-220 HOT AIR FURNACE

This dual feeder anthracite stoker furnace is designed for a home up to 5000 sq/ft. or for businesses such as green houses or barns. The internal heating surface is approximately 34 square feet, with 26 tubes transferring the heat to your home. Compare Heat Exchangers on all coal burning units, you will find that Leisure Line offers the largest surface area and the best efficiency. Optional Cold Air Return Plenum with 20" x 20" Filter.

SPECIFICATIONS

OUTPUT: Heats up to 5,000 sf
DIMENSIONS: 48"H X 29"W X 58"D
HOPPER: Holds 320lbs.
WEIGHT: 800lbs.
BLOWER: 1,800 CFM

SHOWN WITH STANDARD 320lb. HOPPER.
THIS UNIT WILL SERVICE AN AVERAGE HOME OF UP TO 5,000 SQUARE FEET AT A VERY LOW COST.

WL-110 DUAL FUEL BOILER

A two piece boiler designed with our Pocono coal stoker feeder as a base unit. The pressure vessel/oil burner unit sits on top and is manufactured by Axeman-Anderson. It Can also be fitted with a Natural Gas or Propane burner for additional charge. The WL-110 burns Rice-sized or Buckwheat-sized Anthracite Coal. Optional Flue Clean out and 5GPM DHW Coil.

Note: Switch over between fuel source is not automatic.

SPECIFICATIONS

OUTPUT: Heats up to 3,000 sf
DIMENSIONS: 54"H X 28"W X 34"D
HOPPER: Holds 200lbs.
WEIGHT: 500lbs.
WATER CAPACITY: 12 Gallons
DHW COIL: 3 GPM

OPTIONAL 320lb. HOPPER.
THIS UNIT WILL SERVICE AN AVERAGE HOME OF 2,500 – 3,000 SQUARE FEET AT A VERY LOW COST.

AA-220 ANTHRACITE COAL BOILER

The AA-220 is a two piece design with a Leisure Line base unit featuring our reliable Double-Pocono coal stoker feeder. This hydronic, UL Tested boiler is capable of heating the typical single family home up to 5,000 sq. ft. The AA-220 unit is also certified to be used in commercial building structures and burns Rice-sized or Buckwheat-sized Anthracite Coal. Optional 6 GPM DHW Coil.

SPECIFICATIONS

OUTPUT: Heats up to 5,000 sf
DIMENSIONS: 62"H X 27"W X 59"D
HOPPER: Holds 320lbs.
WEIGHT: 1100lbs.
WATER CAPACITY: 42 Gallons
DHW COIL: 5 GPM

THIS UNIT WILL SERVICE AN AVERAGE HOME OF UP TO 5,000 SQUARE FEET AT A VERY LOW COST.
